European CleanTech I SE

Management Report by the Management Board

The Directors present their report and condensed interim financial statements for the six months period ending 30 June 2011.

European CleanTech I SE ("the Company") is a Société Européenne (SE) incorporated under the laws of Luxembourg, established for the purpose of acquiring one or more operating businesses with principal business operations in member states of the European Economic Area (EEA) through a merger, share exchange, share purchase, asset acquisition, reorganization or similar transaction or group of such transactions (a "Business Combination").

The Company is seeking to consummate a Business Combination and will focus on the "clean technology" sector, in particular in the areas of energy substitution (the substitution of fossil energy by renewable energy). The Company has until October 19, 2012 to consummate a Business Combination. Otherwise, the Company will liquidate and distribute substantially all of its assets to its shareholders (other than the Sponsors).

On October 20, 2010 the Company raised up EUR 115 000 000 through an IPO of 11 500 000 Units at a Unit price of EUR 10. Each Unit consists of one redeemable Class A share of the Company, with no nominal value (a "Public Share"), and one Class A warrant with a stated exercise price of EUR 11.50 (a "Public Warrant").

Public Warrants are treated as non-current financial liability under International Financial Reporting Standards, even though they will be settled net in shares only (not in cash). Accordingly, fair value changes subsequent to the initial measurement of each Warrant will be recognized in the profit and loss account. For the interim period there is a negative impact of EUR 2 725 500 on results.

The Public Shares and Public Warrants are listed on the Frankfurt Stock Exchange under the ISIN LU0538936351 and LU0538952044, respectively. On June 30, 2011, trading closed at a per unit price of EUR 10.45 (4.5% above offering price): EUR 9.95 per share and EUR 0.50 per warrant.

Immediately prior to the IPO, the Company raised further funds through a private placement of 4 968 678 class B warrants ("Founding Warrants") with the founding shareholders. The Founding Warrants are identical to the Public Warrants except that, as long as the Founding Warrants are held by the founding shareholders or their affiliates: they will not be redeemable and they may be exercised on a cashless basis at the holder's option, but cashless exercise will not be required.

Being a Special Purpose Acquisition Company, the Company has recorded no revenues from operations to date. The results are therefore fully attributable to fair value changes of financial liabilities and assets, financial income on the German government bonds in the escrow account and the operating expenses. Mainly because of the net fair value loss on financial assets and liabilities, the Company reports a net loss for the reporting period of EUR 2 532 183.

At balance sheet date, share capital was EUR 345 000, represented by 11 500 000 Public Shares (representing 80 % of the total share capital), and the unlisted class B shares, divided into 958 333 Class B1 shares (representing 6.66 % of the total share capital), 958 333 Class B2 shares (representing 6.66 % of the total share capital) and 958 334 Class B3 shares (representing 6.68 % of the total share capital) (the class B shares are also referred to as "Sponsor Shares").

Promptly upon the IPO, the Company transferred all the IPO proceeds and certain deferred underwriting commissions into an Escrow Account maintained with Deutsche Bank, London branch, and held through an Irish branch of the Company. Funds in the Escrow Account may only be used in connection with a Business Combination. If the Company does not consummate a Business Combination by the relevant deadline, the remaining amounts in the Escrow Account will be distributed by the Company to the holders of Public Shares.

To the best of our knowledge, we are not aware of any events which would have a material bearing on the accounts since 30 June 2011. The Company is actively searching to invest in a business combination and to therefore contribute meaningfully to the target company's future development and value creation. A business combination with European CleanTech I SE will offer a target company the opportunity to access new financing and become publically traded without undertaking a traditional IPO, an attractive and innovative financing alternative in an IPO market that has become increasingly difficult for many mid-sized companies.
